Ideal for preparing small batches of enteric or film coated capsules in your laboratory.

Save time and money by eliminating set-up time for pan/spray coating.

Innovative dip apparatus for complete and uniform coating.

Used in hospitals and university pharmacies; clinical laboratories; drug development.

Works with solvent-based coatings as they dry quickly.

Batch Size	Up to 60 capsules. Recommended batch size is 32 capsules.
Batch Time	About 60 minutes, including 50 minutes of drying time, for two coatings of capsule caps and body.
Coating Method	Dip coating using solvent based coatings.
Coating Solution	• Contact Torpac for details of recipes • You can use CAP from Eastman Chemical and Eudragit from Evonik (formerly Degussa, Huls or Rohm) • Refer to the article Dodds, Ruth and Podczek, Fridrun "USING A SMALL-SCALE CAPSULE DIP COATER TO PRODUCE GASTRO-RESISTANT HARD CAPSULES".
